

Online Public Consultation for an Evaluation of the FTA between the EU and its Member States and Colombia, Peru and Ecuador

Fields marked with * are mandatory.

A

Introduction

About the Trade Agreement

Since 2013, the European Union (EU) has a Trade Agreement with Colombia and Peru in place, which Ecuador joined in 2017. The Agreement gradually opens up markets on both sides and increases the stability and predictability of the trade and investment environment. It is also one of the first “new generation” trade agreements of the EU, characterised by their comprehensive scope. In addition to liberalisation of trade in goods and services, the Agreement covers investment, public procurement, competition, intellectual property rights, as well as trade and sustainable development issues.

About the evaluation of the Agreement

After several years of implementation, an evaluation study is currently under way to analyse the economic, social, human rights (including labour rights) and environmental impacts of the implementation of the Agreement. The purpose is to identify areas of strong performance, as well as opportunities to improve the implementation of the Agreement.

More information about the evaluation is available from a dedicated [evaluation study website](#).

About this survey

The purpose of the present consultation is to seek inputs to the evaluation study. All citizens, organisations and public authorities, regardless of where they are located, are welcome to participate in this survey. Please note that a separate questionnaire for businesses is available – if you are responding on behalf of a business, including an SME, please (also) participate in the [business survey](#).

The questionnaire is available in English, Spanish, French and German. Completing it should take no more than 20 minutes.

If you wish to add further information (such as a position paper), you can do so at the end of the questionnaire.

The survey will be available online until **08 April 2021 (midnight Brussels time)**.
